Contributions to DGoZ

Here you can find the interactive files for my contributions to the [German Go Journal](#). Just give them a try! Anything highlighted in blue is a link – just click on it.

If you have any problems with the website, just [send me an email](#) and I'll be happy to help.

The contributions listed below are available in SmartGo and EPUB format. A reader for the SmartGo format can be found in the App Store (see also [SmartGo](#)) and a reader for the EPUB format [for example with the readers presented in this article](#). Once you have obtained a suitable reader, you need to download the desired file: To do this, select it with the left mouse button and then download it in raw format (symbol on the far right with the downward arrow).

About Five Books by Segoe Kensaku 瀬越憲作

[Segoe Kensaku \(1889–1972\)](#) was a Go player of the Japanese [Taishō](#) and [Shōwa](#) eras. From 1947 to 1948 he was chairman of the Nihon Ki-in and contributed significantly to the popularization of Go in Japan. Due to his deteriorating health and because he wanted to avoid being a burden to anyone, he committed suicide in 1972.

All the contributions listed below can be found using the links highlighted in blue. The files can then be downloaded (see above).

Segoe Kensaku »Tsume-Go Dictionary 詰碁辞典«

In addition to the contribution DGoZ 02/2024, I have begun to present the above-mentioned dictionary in more detail. This supplement also explains where the »book« is hidden on the IZIS Go Board.

- In *Segoe-Kategorie.pdf* the 30 categories are discussed as they can be found in Segoe's book. For all these categories, the first ten problems can be found as exercises and solutions in *Segoe-TsumeGo.pdf*.
- For all those who would like to »read and solve« all of this interactively: *Segoe-TsumeGo.gobk* uses the [SmartGo program](#) and contains an overview of the categories and 10 problems each. There is also now an EPUB version that can also be used interactively with a suitable reader – such as the Apple Books app. All of this can be found in the subdirectory [Segoe-TsumeGo](#).

The mentioned directories also contain the contributions from DGoZ in PDF format.

- Status:
 - SmartGo format: As of 2025/10/01
 - PDF: As of 2025/10/01
 - EPUB version: As of 2025/10/01

Additional Contributions

- *Contribution »Feeling«* This article deals with the evaluation of possible moves in the opening phase of a game and is an excerpt from a special issue of *Gekkan Go Gaku* – 別冊 月刊碁学 Monthly Go School – of the [Kansai Kiin](#). This article can be found [under this link](#).
- *Contribution »Yose«* This article deals with finding the optimal way to play in the endgame. This is a contribution in *Gekkan Go Gaku* – 別冊 月刊碁学 Monthly Go School – of the Kansai Kiin, which appeared there regularly. This article can be found under this link.
- [100-AI-Joseki](#) provides an overview of the 100 joseki in [the book of the same title](#), as it does not contain an index or any other overview.
- *Letter to the Editor about »The Match«* The SGF file mentioned in the letter to the editor can be found under [The-Match-Film](#)
- All games discussed in the book by [Shin Jinseo](#) »My Go Journey« can be found in the subdirectory [ShinJinseo-Buch](#)

IZIS AI Board

The following section is in English as it supplements English-language materials.

Here you will find supplements to the YouTube videos by Tobias Berben and the [English manual](#) for the [IZIS AI Board](#). These were created during the familiarization process with this Go board, and I hope they assist others in their initial steps. Anything highlighted in blue is a link – just click on it.

- English Version: [en-IZIS-Manual.pdf](#)
- German Version: [de-IZIS-Manual.pdf](#)
- Supplement: [Chinese Version of the Exercises](#), also in the above-mentioned manuals.
- Added (2024/05/05): Some information about Segoe [Kensaku "TsumeGo Jiten"](#) and some information about the *Exercise Course Mode* section there, which contains some interesting exercises (presently in German).
